

Halan Briones Merino

Computer and Informatics Engineer

About Me

I am a recent graduate of the Computer and Informatics Engineering career, this career prepared me as a professional in areas such as logical programming of information systems with different tools and languages for the correct and efficient creation of these, at the same time, configuration and creation of a database so that they work together with said systems, with knowledge in the administrative field with methodologies or methods that entail the entire process from the analysis of the project to the delivery of the product so that this is documented, registered and the client is satisfied. In short, this career prepares me to perform teamwork that is at the same time quality in the analysis, preparation, creation, installation, assembly, and delivery of software. To date, I have worked as a junior computer engineer in some projects of the company ITECHI Ltd., which is a partner of companies such as VMware, IBM, Microsoft, and Red Hat, among others.

I have participated in infrastructure projects, training to migrate to the Azure cloud, as a junior programmer, etc. Which have given me experience and a real vision of the world of information technologies.

- Website creation
- Assembly in web hosting servisse
- Register a DNS

ABILITIES

- ❖ Development methodologies
- ❖ Agile methodologies
- ❖ Databases
 - MongoDB
 - Postgresql
 - MySql
- ❖ Data Oriented Modeling
 - MER
 - MR
- ❖ Process Oriented Modeling
 - BPMN
 - Use cases
 - Activity diagram
- ❖ Frameworks
 - Laravel
 - Node js
 - Notions in React
- ❖ Coding Skills
 - PHP
 - JavaScript
 - HTML
 - Bootstrap
 - CSS
 - Bootstrap
 - Notions in C
 - Notions in Java

LANGUAGES

Español: Native

Inglés: B2 (upper Intermediate)

EDUCATION

2022- current | Dublín, Ireland

English C1.

NED College

2017-2021 | Concepción-Chile

Computer and Informatics Execution Engineering.

University of the Bío Bío
